

# BRON<sup>®</sup>

## POWER TO PERFORM

The **BRON 150** is a compact, self-propelled utility tractor, used for gas line and utility installations.

Engineered for power and performance the **BRON 150** was designed to let contractors work on any terrain, maneuver in tight confines and perform efficiently in most soil conditions. The **BRON 150** comes with variable vibration for optimal production in different ground conditions. **BRON 150** comes with a **V75-3 Vibratory Plow** and an **8,000 pounds capacity reel carrier**.

### BRON 150 SELF PROPELLED UTILITY PLOW

# BRON

RWF BRON recently introduced their new 2013 150 BRON Utility Plow with a V75-3 Vibratory Plow. BRON's new enclosed cab comes with heat & air conditioning, tinted tempered glass, sliding rear window and full ROPS protection. Inside the cab, swivel seat and seat mounted controls give you clear visibility up front and behind. The cab is designed with fairleads on the roof, keeping the cables in line and organized ready for installation. The BRON 150 also comes with an open ROPS canopy, dual reel carrier ROPS fairleads and slider chute.

The BRON 150 has 225 Horse Power Caterpillar Engine and has the ability to bury cable up to 48 inches deep, depending on ground conditions.

## NEW MODEL 150 - CABLE PLOW SPECS

Operating Weight - lbs. (kg)	36,500 (16,556)
Length - in. (cm)	153 (389) - not including reel carrier & plow 366 (930) – including reel carrier & plow
Height - in. (cm)	109 (277) - not including canopy rollers
Plow	BRON V75-3
Max. Cutting Depth - in. (cm)	60 (152)
Engine - h.p. (kw)	CAT 225 (168)
Track Drive	Hydrostatic 2-speed automatic - Variable speed
Ground Pressure - in. / psi (cm / kPa)	5.4 (37.2)
Undercarriage - in. (cm)	D4 S.A.L.T.
	72 gauge (183)
	112 footprint (284)
	Ground clearance 14 (35.6)
	Shoe width 30 (76)
Rollers per side	7
Outside Track Width - in. (cm)	102 (259)
Fuel Tank - U.S. gallons (l)	76 (787)
Hydraulic Tank - U.S. gallons (l)	54 (204)
Hydraulics	load sense closed centre
Reel Carrier - lb. (kg) / in. (cm)	8,000 (3632) standard lift capacity
	58 (147) dual reel width
	80 (203) (less center arm)
	114 (289.6) max. reel dia.
